

# Aesculap Surgical Technologies

## Titanium Ligating Clips and Appliers

# Clip Appliers for Open Surgery

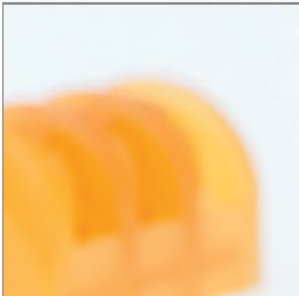

## Clipanlegezangen für die offene Chirurgie

*New Generation / Neue Generation*

**Why be happy with anything less, when you can have all the advantages in one product?**

- Narrow, delicate instrument tips provide the optimum overview
- Special spring shape offers the greatest possible stability and secure clip holding
- Product variety - the perfect instrument for every indication
  - 150 mm, 203 mm and 280 mm instrument lengths
  - 25°, 65° and 90° jaw angles
- Colour coding for easy identification to the matching clip size

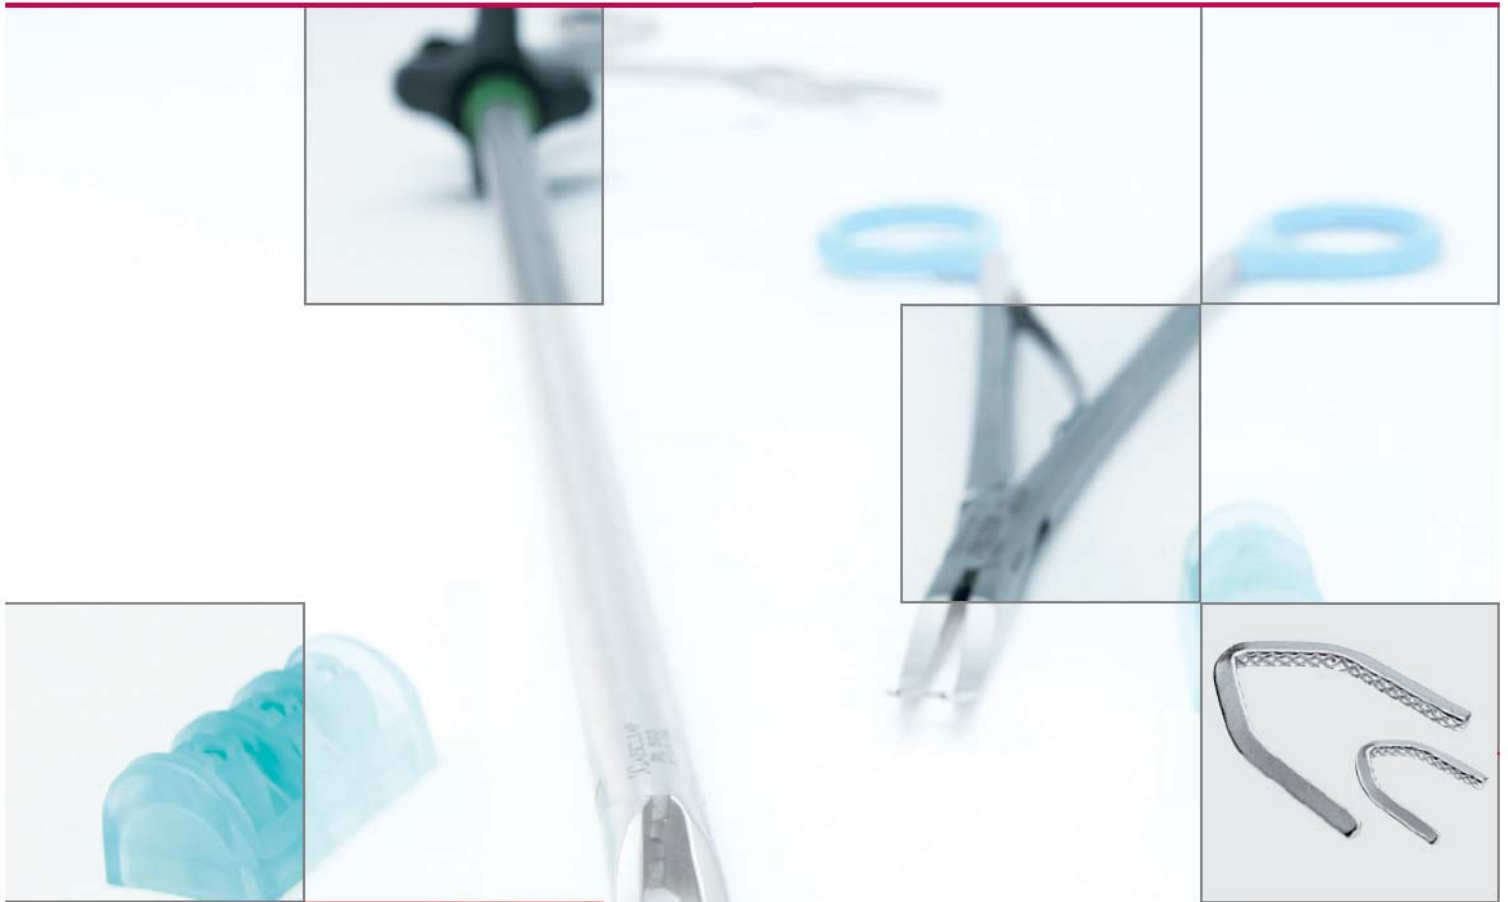

**Warum mit weniger zufrieden geben, wenn Sie alle Vorteile in einem Produkt haben können?**

- Schmale und feine Instrumentenspitzen bieten bestmögliche Übersicht
- Spezielle Federform bietet höchstmögliche Stabilität und sicheren Cliphalt
- Produktvielfalt – Für jede Indikation das perfekte Instrument
  - Instrumentenlängen 150 mm, 203 mm, 280 mm
  - Maulabwinkelungen 25°, 65° und 90°
- Farbcodierung zur leichten Identifikation der passenden Clipgröße

# Titanium Ligating Clips

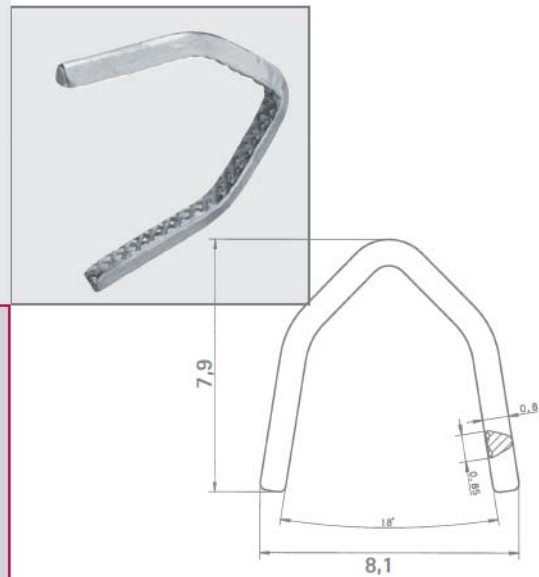

## Titan Ligaturclips

**FB270R**  
Clip tray for sticking on the clip cartridges  
Cliptray zum Aufkleben der Clipmagazine

**The new clip applicators combined with the tried and tested Aesculap titanium ligating clips, an ideal combination!**

- Special inner clip profiling provides the greatest possible contact surface and prevents the clip slipping out of place after application
- The special closing behaviour of the clip prevents undesirable tissue slippage
- Special soft load clip cartridge for extremely easy clip release
- Indentations on the cartridge sides for comfortable handling
- Adhesive surface on the cartridge for secure holding in every position

**Die neuen Clipanlegezangen in Verbindung mit den bewährten Aesculap Titan-Ligatur-Clips, eine ideale Kombination!**

- Spezielles Schließverhalten verhindert ungewolltes Herausrutschen von Gewebe aus dem Clip
- Rautenförmige Innenprofilierung des Clips bietet größtmögliche Kontaktfläche und verhindert ein Verrutschen des Clips nach der Applikation
- Spezielle Soft-Load-Clipmagazine für einfachste Clipentnahme
- Seitliche Griffmulden am Magazin für komfortables Halten
- Klebefläche am Magazin für sicheren Halt an jeder Stelle
